MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations from January 1, 2017 to June 30, 2017

Markets & Effect

Canadian 10-year bond yields moved higher to end the first half of the year, responding to upward trends with global interest rates, a perceived change in the Bank of Canada's ("BoC") direction and strong economic data releases for the domestic economy. The yield curve flattened with shorter term rates repricing on expectations the BoC will unwind cuts put in place during the oil crash.

Corporate bonds broadly outperformed Government of Canada and provincial sectors on a duration-adjusted basis. There was sub-sector divergence with REIT and pipeline spreads underperforming on concerns over higher interest rates and lower energy prices.

A flatter yield curve resulted in material performance differences between short bonds and longer bonds with the FTSE TMX Canada Short Term Overall Bond Index returning -0.42% versus a 4.1% gain for the FTSE TMX Canada Long Term Overall Bond Index.

Corporate bonds broadly outperformed Government of Canada and provincial sectors on a duration-adjusted basis. There was sub-sector divergence with REIT and pipeline spreads underperforming on concerns over higher interest rates and lower energy prices.

Performance

The Fund's Series A Units trailed its benchmark, gaining 1.8% versus a gain of 2.4% for the FTSE TMX Canada Universe Bond Index (the "Index").

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the "Past Performance" section for the returns of the other series, which may vary because of differences in management fees and expenses or timing of series introduction.

Asset Mix

At June 30, 2017, the Fund consisted of 59.0% in Canadian government fixed income securities, 40.3% in Canadian corporate fixed income securities, and approximately 0.7% in cash and other net assets.

Flows & Fees

The Fund's Net Asset Value increased to \$71.8 million at June 30, 2017, from \$68.5 million at December 31, 2016. Of this change, an increase of \$1.6 million was due to positive performance (net of investment income) and an increase of \$1.7 million was due to inflows.

For Series A units, the annualized management expense ratio ("MER") at June 30, 2017 is 1.37%, unchanged from December 31, 2016.

Recent Developments

There are no known changes at this time to the strategic positioning of the Fund, the manager, or portfolio sub-advisor.

On May 15, 2017, Bridgehouse announced that it intends to re-designate current investors in Series K to Series A, Series M to Series F and will eliminate Series K and Series M. The change is expected to be implemented on or about July 7, 2017. In anticipation of the Series re-designations, Series K and Series M will be closed to new purchases as of July 4, 2017.

International Financial Reporting Standards

The International Accounting Standards Board ("IASB") issued IFRS 9 to replace IAS 39, "Financial Instruments—Recognition and Measurement". In December 2014, the IASB made further changes to the standard. With these amendments, IFRS 9 is now complete. IFRS 9 is to be applied retrospectively and it is effective for annual periods beginning on or after January 1, 2018. The Manager continues to assess the impact of IFRS 9.

IFRS 15 "Revenue from Contracts with Customers" was issued in May 2014 and is effective for years beginning on or after January 1, 2018, to be applied retrospectively or on a modified retrospective basis. IFRS 15 clarifies revenue

recognition principles, provides a robust framework for recognizing revenue and cash flows arising from contracts with customers and enhances qualitative and quantitative disclosure requirements. IFRS 15 does not apply to insurance contracts, financial instruments and other related contractual rights and obligations and lease contracts. The Funds are assessing the impact of this standard. The Funds do not intend to early adopt this standard.

Related Party Transactions

Manager and Portfolio Sub-Advisor

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers ("Bridgehouse") which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each class of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Bridgehouse has retained Greystone Managed Investments Inc. ("Greystone") as the portfolio sub-advisor to the Fund. Bridgehouse pays Greystone an investment management fee to provide the Fund with investment management services.

Forward-Looking Statements

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as "may", "will", "should", "could", "expect", "anticipate", "intend", "plan", "believe", or "estimate" or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

- The financial information presented in the Net Assets per Unit table is derived from the Fund's audited annual financial statements.
- Net Assets and distributions are per Unit of a series are based on the actual number of units outstanding for that series at the relevant time. The Increase (Decrease) from Operations per Unit of a series is based on the weighted average number of units outstanding for that series during the financial period.
- Distributions per Unit of a series are based on the number of units outstanding for the series on the record dates for the distributions. Distributions were paid in cash/reinvested in additional units of the Fund or both.

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at June 30, 2017 and December 31 of the previous years shown.
- The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.
- Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A, Series F, Series K and Series M. Management fees for Series I are negotiated and paid directly by the unitholders of Series I, not by the Fund.

For the six months ended June 30, 2017, the Fund paid Bridgehouse Asset Managers management fees of \$91,481. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A (43% / 57%)
- Series F (0% / 100%)
- Series I (0% / 100%)
- Series K (46% / 54%)
- Series M (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the six months ended June 30, 2017 and each of the previous annual periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance, except in the case of Series I units where the management fee is calculated outside of the Fund. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year. 2017 data presented below is for the six-month period ended June 30, 2017.

*2014 Series A returns are from November 4, 2014
†Six-month return from January 1 to June 30, 2017.

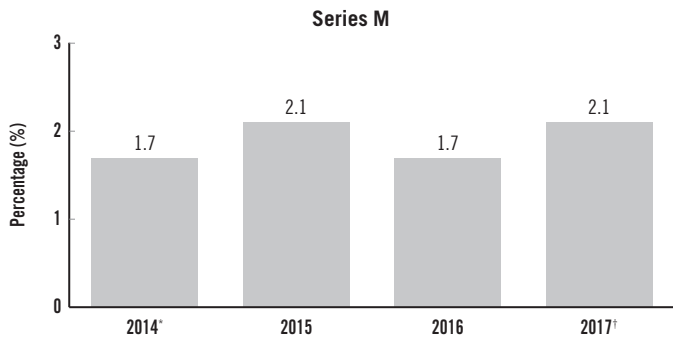

*2014 Series F returns are from November 4, 2014
