MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations from January 1, 2017 to June 30, 2017

Markets & Effect

In the United States, higher-than-expected earnings growth and low volatility propelled the S&P 500 Index to new all-time closing highs. Market returns in the first half of the year have been largely driven by growth sectors like technology and health care, which accounted for approximately 60% of the S&P 500 Index returns. Non-U.S. market stocks rebounded in the first half of 2017, with major markets including France, Germany and the Netherlands posting double-digit returns. The Japanese market gained 6.6%, however, stronger economic conditions were partially offset by volatility in the value of the yen.

Emerging markets advanced 14.7% for the first half of the year. Brandes LP believes there is still ample opportunity in the asset class, with valuations remaining attractive relative to developed market equities, especially the United States.

Performance

The Fund's Unhedged Series A units trailed its benchmark, gaining 4.3% versus a gain of 7.2% for the MSCI World Index (the "Index"). The Fund's Hedged Series A units also trailed its benchmark, gaining 4.5% versus a gain of 8.3% for the MSCI World Index Hedged (the "Index").

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the "Past Performance" section for the returns of the other series, which may vary because of differences in management fees and expenses or timing of series introduction.

The Fund's holdings in South Korea contributed to performance. Holdings in the pharmaceuticals industry made positive contributions to overall performance. Holdings in oil, gas & consumable fuels were a detractor from performance for the period.

Asset Mix

As always, exposure to various countries and industries shifted due to stock-specific buying and selling as well as to changes in the prices of holdings. At June 30, 2017, global equities made up 97.2% of the Fund, and 2.8% was in cash and other net assets.

The Fund's most significant country exposure change was an increase in holdings in France to 12.3% from 10.3% at December 31, 2016. The largest industry exposure change was an increase in holdings in the pharmaceuticals industry to 13.3% from 11.4% at December 31, 2016.

In line with its bottom-up investment philosophy, Brandes LP continues to build the portfolio on a company-by-company basis. Brandes LP only compares the Fund to the Index in the course of ensuring that it remains appropriately diversified. As a result, the Fund's industry and country weightings were quite different from the Index during the period. For example, at June 30, 2017, the Fund's largest industry exposure was in the pharmaceuticals industry, which comprised 13.3% of the Fund's portfolio, versus 5.9% for the Index.

Typically less than 5% of the Fund is allocated to any one security, at the time of purchase. Therefore, the addition or deletion of an individual security will generally not constitute a substantial change to the portfolio.

Flows & Fees

The Fund's Net Asset Value decreased to \$433.4 million at June 30, 2017, from \$451.3 million at December 31, 2016. Of this change, an increase of \$20.5 million was due to positive investment performance (net of investment income), and a decrease of \$38.4 million was due to outflows.

For Series A units, the annualized management expense ratio ("MER") at June 30, 2017 is 2.32%, compared to 2.57% at December 31, 2016 for the Unhedged series. The annualized MER for the Hedged series is 2.46% at June 30, 2017, compared to 2.67% at December 31, 2016.

Recent Developments

There are no known changes at this time to the strategic positioning of the Fund, the manager, or portfolio sub-advisor.

Effective August 1, 2016, the management fees were reduced as follows: from 2.20% to 1.85% in respect of Series A units; from 2.25% to 1.90% in respect of Series AH units; from 1.45% to 1.10% in respect of Series D units; from 1.20% to 0.85% in respect of Series F units and from 1.25% to 0.90% in respect of Series FH units.

On September 2, 2016, Bridgehouse re-designated investors in Series AN to Series A and Series FN to Series F, and eliminated Series AN and Series FN.

In anticipation of the series re-designations, Series AN and Series FN were closed to new purchases as of August 1, 2016.

The Brandes Global Equity Class was merged into the Brandes Global Equity Fund on February 24, 2017. All costs and expenses associated with the merger were borne by the Manager.

On May 15, 2017, Bridgehouse announced that it intends to re-designate current investors in Series K to Series A, Series L to Series A, Series M to Series F, Series KH to Series AH, Series LH to Series AH, Series MH to Series FH and will eliminate Series K, Series L, Series M, Series KH, Series LH and Series MH. The change is expected to be implemented on or about July 7, 2017. In anticipation of the Series re-designations, Series K, Series L, Series M, Series KH, Series LH and Series MH will be closed to new purchases as of July 4, 2017.

Series W was eliminated on May 2, 2017.

International Financial Reporting Standards

The International Accounting Standards Board ("IASB") issued IFRS 9 to replace IAS 39, "Financial Instruments—Recognition and Measurement". In December 2014, the IASB made further changes to the standard. With these amendments, IFRS 9 is now complete. IFRS 9 is to be applied retrospectively and it is effective for annual periods beginning on or after January 1, 2018. The Manager continues to assess the impact of IFRS 9.

IFRS 15 "Revenue from Contracts with Customers" was issued in May 2014 and is effective for years beginning on or after January 1, 2018, to be applied retrospectively or on a modified retrospective basis. IFRS 15 clarifies revenue recognition principles, provides a robust framework for recognizing revenue and cash flows arising from contracts with customers and enhances qualitative and quantitative disclosure requirements. IFRS 15 does not apply to insurance contracts, financial instruments and other related

contractual rights and obligations and lease contracts. The Funds are assessing the impact of this standard. The Funds do not intend to early adopt this standard.

Related Party Transactions

Manager and Portfolio Advisor

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers ("Bridgehouse") which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each class of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Brandes Investment Partners L.P. ("Brandes LP") continued to be the Manager's portfolio sub-advisor in respect of the Fund. Bridgehouse pays Brandes LP an investment management fee to provide the Fund with investment management services. Bridgehouse and Brandes LP are affiliates.

Forward-Looking Statements

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as "may", "will", "should", "could", "expect", "anticipate", "intend", "plan", "believe", or "estimate" or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

Benchmark Indices

MSCI World Index: This index consists of equities from developed markets around the world, including Canada and the United States.

MSCI World Index (Hedged): This index consists of equities from developed markets around the world, including Canada and the United States. The hedged version minimizes the exposure of currency fluctuations on index performance.

- The financial information presented in the Net Assets per Unit table is derived from the Fund's audited annual financial statements. The Fund adopted International Financial Reporting Standards ("IFRS") commencing January 1, 2014. This information for the years up to 2012 is stated under Canadian GAAP. The 2013 numbers have been restated for comparative purposes to comply with IFRS 13, which came into effect January 1, 2014. An explanation of the differences and reconciliation can be found in the notes to the financial statements.
- Net Assets per Unit of a series is based on the number of units outstanding for that series at the relevant time. The Increase (Decrease) from Operations per Unit of a series is based on the weighted average number of units outstanding for that series during the period.
- Distributions per Unit of a series are based on the number of units outstanding for the series on the record dates for the distributions. Distributions were paid in cash/reinvested in additional units of the Fund or both.

4. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at June 30, 2017 and December 31 of the previous years shown.

5. The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.

6. Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

7. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value of the Fund. The trading expense ratio is calculated at the Fund level and applies to all series of the Fund.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A, Series AH, Series D, Series F, Series FH, Series K, Series KH, Series L, Series LH, Series M and Series MH. Management fees for Series I and Series IH are negotiated and paid directly by the unitholders of Series I and Series IH or dealers, as applicable, and not by the Fund.

For the six months ended June 30, 2017, the Fund paid Bridgehouse Asset Managers management fees of \$3,974,279. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A, AH (47% / 53%)
- Series D (20% / 80%)
- Series F, FH (0% / 100%)
- Series I, IH (0% / 100%)
- Series K, KH (45% / 55%)
- Series L, LH (29% / 71%)
- Series M, MH (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the six months ended June 30, 2017 and each of the previous annual periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance, except in the case of Series I and Series IH units where the management fee is calculated outside of the Fund. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year. 2017 data presented below is for the six-month period ended June 30, 2017.
