The Lazard Emerging Markets Multi-Asset Fund is a multi-asset portfolio designed to produce similar returns to the MSCI Emerging Markets Index over the long-term while generating a lower volatility pattern of returns. This is achieved through dynamic allocation to specialized Lazard investment portfolios covering a range of emerging market asset classes.

Features

- Diversified across six different Lazard EM strategies covering equities, debt and currencies
- Seeks to add value through security selection and asset allocation
- Ability to actively change allocation to equities and fixed income
- Targets 25% less volatility than the MSCI Emerging Markets Index

Benefits

- Provides comprehensive exposure to all emerging market asset classes in a single portfolio
- Offers two sources of potential alpha generation through all market cycles
- Can re-position to participate in rising markets and defend in declining markets
- Aims to avoid the extreme outcomes typically found in emerging markets
