MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations from January 1, 2021 to June 30, 2021

Markets & Effect

Non-US equities, as measured by the MSCI All Country World ex-US Index, returned 6.1% for the first half of the year. Despite all of the noise around U.S. congressional hearings, meme stocks, and global trade dislocations, both emerging and developed markets posted single-digit positive returns.

The energy and financial sectors were among the strongest performers, gaining 15.5% and 9.9%, respectively. Vaccine rollout is getting us closer to some degree of normalcy in our lives as many regions of the world are experiencing declining number of COVID-19 cases, higher vaccination rates, and ensuing economic resurgence. We also saw a higher degree of breadth across equity markets: on a sector level, every sector, except utilities, is positive on a year-to-date basis.

GQG Partners believes that while many sectors are currently performing well, as denoted by an increase in price, it is important to remember that not everything is worth owning. GQG Partners continues to remain very selective and focused on uncovering opportunities at sensible prices without sacrificing either the quality or the growth characteristics of the portfolio.

Performance

Performance for the Fund cannot be shown until 12 months from the inception date has passed.

Asset Mix

At June 30, 2021, equities made up 96.9% of the Fund, and approximately 3.1% was in cash and other net assets.

The Fund's most significant country exposure change was a decrease in holdings in China to 2.0% from 7.2% at December 31, 2020. The most significant industry exposure change was an increase in holdings in oil, gas & consumable fuels to 5.9% from nil at December 31, 2020.

The Manager confirms that the Fund did not borrow money during the period.

Flows & Fees

The Fund's Net Asset Value increased to \$49.6 million at June 30, 2021, from \$24.6 million at December 31, 2020. Of this change, an increase of \$3.5 million was due to positive investment performance (net of investment income), and an increase of \$21.5 million was due to net inflows.

For Series A units, the annualized management expense ratio ("MER") at June 30, 2021 is 2.23%, compared to 2.26% at December 31, 2020.

Recent Developments

As noted in the simplified prospectus, this Fund is subject to large transaction risk because it has security holders who individually own more than 10% of the Fund. In order to reduce the impact of this risk to security holders, Bridgehouse asks, but does not require, large investors to provide notice when significant redemptions are being contemplated.

Effective November 27, 2020, a U.S. dollar purchase option was added to the Fund, available for Series A, Series F and Series I versions of the Fund.

The outbreak of the novel coronavirus, first detected in December 2019, rapidly became a pandemic and resulted in disruptions to the economies of many nations, individual companies and the markets in general. This created closed borders, quarantines, supply chain disruptions and general anxiety, which negatively impacted global markets in an unforeseeable manner. The impact of the novel coronavirus and other such future infectious diseases in certain regions or countries may be greater or less due to the nature or level of their public health responses or due to other factors. Health crises caused by the coronavirus outbreak or future infectious diseases may exacerbate other pre-existing political, social and economic risks in certain countries. The impact of such health crises may be quick, severe and of unknowable duration. This pandemic and other epidemics

and pandemics that may arise in the future could result in continued volatility in the financial markets and lead to increased levels of Fund redemptions, which could have a negative impact on the Funds and could adversely affect a Fund's performance.

Related Party Transactions

Manager and Portfolio Sub-Advisor

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers ("Bridgehouse") which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each series of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Bridgehouse has retained GQG Partners LLC ("GQG Partners") as the portfolio sub-advisor to the Fund. Bridgehouse pays GQG Partners an investment management fee to provide the Fund with investment management services.

Forward-Looking Statements

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as "may", "will", "should", "could", "expect", "anticipate", "intend", "plan", "believe", or "estimate" or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

- The financial information presented in the Net Assets per Unit table is derived from the Fund's audited financial statements.
- Net Assets and distributions are per Unit of a series are based on the actual number of units outstanding for that series at the relevant time. The Increase (Decrease) from Operations per Unit of a series is based on the weighted average number of units outstanding for that series during the financial period.
- Distributions per Unit of a series are based on the number of units outstanding for the series on the record dates for the distributions. Distributions were paid in cash/reinvested in additional units of the Fund or both.

Ratios and Supplemental Data

		Net asset value (\$000) (note 4)	Number of units outstanding (000) (note 4)	Management expense ratio (MER) (%) (note 5)	MER before waivers or absorption (%) (note 5)	Portfolio turnover rate (%) (note 6)	Trading expense ratio (%) (note 7)	Net asset value per unit (\$)

	2020	425	43	2.26	3.66	34.95	1.81	9.99
Series F	2021	25,882	2,389	1.09	1.37	-	-	10.83
	2020	9,664	965	1.13	2.45	-	-	10.01
Series I	2021	22,654	2,075	0.00	0.00	-	-	10.92
	2020	14,518	1,446	0.00	0.00	-	-	10.04

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at December 31 of the years shown.
- The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.
- Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value of the Fund. The trading expense ratio is calculated at the Fund level and applies to all series of the Fund.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A and Series F. Management fees for Series I are negotiated and paid directly by the unitholders of Series I, not by the Fund.

For the six months period ended June 30, 2021, the Fund paid Bridgehouse Asset Managers management fees of \$85,947. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A (50% / 50%)
- Series F (0% / 100%)
- Series I (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the six months ended June 30, 2021 and each of the previous annual periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance, except in the case of Series I units where the management fee is calculated outside of the Fund. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year. 2021 data presented below is for the six-month period ended June 30, 2021.

Since the Fund is less than one year old, no performance information is presented.
