### MANAGEMENT DISCUSSION OF FUND PERFORMANCE

#### Results of Operations from January 1, 2018 to June 30, 2018

##### **Markets & Effect**

The S&P/TSX Composite was up 6.8% in the second quarter, briefly touching an all-time high. Energy led with a return of 15.8%, driven by three-year-high oil prices as the U.S imposed sanctions on Iran. Health care returned 14.2%, primarily driven by Valeant Pharmaceuticals making progress on restructuring its debt burden. Technology returned 11.0%, with continued outperformance by software companies Shopify and Constellation Software. Underperforming sectors were utilities, telecommunications, and consumer staples, partly due to a rise in interest rates and a rotation out of defensive names. Following a lack of progress on NAFTA negotiations, and the passing of the May 31st deadline imposed by the U.S., the Trump administration announced that it would begin to impose tariffs of 25% on steel and 10% on aluminum against Canada, Mexico and Europe. The impact to Canada's GDP growth would be less than 1%. If an agreement is reached, a breakdown may even be avoided altogether. Perhaps the reason for the positivity is the healthy Canadian economy. The most recent economic readings have unemployment rate at multi-decade lows, GDP growing at a healthy clip and inflation steady at 2.2%. Overall, this market rally is long in the tooth and appears to be entering its later stages. A decade's worth of accommodative tailwinds are starting to reverse. Sionna continues to invest with a cautious stance and remains diversified.

##### **Performance**

The Fund's Series A units outperformed its benchmark, producing 0.0% versus a loss of 2.3% for the BMO Small Cap Index (the "Index").

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the "Past Performance" section for the returns of the other series, which may vary because of differences in management fees and expenses or timing of series introduction.

Holdings in consumer discretionary made positive contributions to overall performance, while holdings in energy detracted from performance for the period.

##### **Asset Mix**

Over the recent reporting period, the Fund's asset mix did not change significantly. At June 30, 2018, equities made up 92.2%, with approximately 7.8% in cash and other net assets.

The Fund's most significant industry exposure change was an increase in holdings in Equity Real Estate Investment Trusts (REITs) to 4.6% from 3.4% at December 31, 2017.

##### **Flows & Fees**

The Fund's Net Asset Value increased to \$191.7 million at June 30, 2018, from \$184.9 million at December 31, 2017. Of this change, a increase of \$2.4 million was due to positive performance (net of investment income) while an increase of \$4.4 million was due to inflows.

For Series A units, the annualized management expense ratio ("MER") at June 30, 2018 is 2.57%, unchanged from December 31, 2017.

##### **Recent Developments**

There are no known changes at this time to the strategic positioning of the Fund, the manager, or portfolio sub-advisor.

As noted in the simplified prospectus, this Fund is subject to large transaction risk because it has security holders who individually own more than 10% of the Fund. In order to reduce the impact of this risk to security holders, Bridgehouse asks, but does not require, large investors to provide notice when significant redemptions are being contemplated.

Effective May 10, 2018, the risk rating of the Fund was changed from "medium to high" to "medium". The change reflects compliance with the new Canadian Securities Administrators' Mutual Fund Risk Classification

Methodology. There have been no changes to the investment objective, strategies or management of the Fund associated with the new risk rating.

### ***International Financial Reporting Standards***

The Funds classify and measure financial instruments in accordance with IFRS 9 Financial Instruments (IFRS 9). Upon initial recognition, financial assets and financial liabilities are classified as FVTPL. Upon transition to IFRS 9, the Funds financial assets and financial liabilities previously classified as FVTPL under IAS39 continued to be categorized as fair value through profit and loss. There were no changes in the measurement attributes for any of the financial assets and financial liabilities upon transition to IFRS 9.

### **Related Party Transactions**

#### ***Manager and Portfolio Advisor***

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers (“Bridgehouse”) which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each class of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Sionna Investment Managers Inc. (“Sionna”) continues as the Fund's portfolio sub-advisor. Bridgehouse pays Sionna an investment management fee to provide the Fund with investment management services.

#### ***Forward-Looking Statements***

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as “may”, “will”, “should”, “could”, “expect”, “anticipate”, “intend”, “plan”, “believe”, or “estimate” or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the

risks detailed from time to time in the Fund's simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

1. The financial information presented in the Net Assets per Unit table is derived from the Fund's unaudited semi-annual financial statements for the six months period ending June 30, 2018 and the audited financial statements. The Fund adopted International Financial Reporting Standards ("IFRS") commencing January 1, 2014. The 2013 numbers have been restated for comparative purposes to comply with IFRS 13, which came into effect January 1, 2014.

2. Net Assets and distributions are per Unit of a series are based on the actual number of units outstanding for that series at the relevant time. The Increase (Decrease) from Operations per Unit of a series is based on the weighted average number of units outstanding for that series during the financial period.

3. Distributions per Unit of a series are based on the number of units outstanding for the series on the record dates for the distributions. Distributions were paid in cash/reinvested in additional units of the Fund or both.

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at June 30, 2018 and December 31 of the previous years shown.
- The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.
- Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value of the Fund. The trading expense ratio is calculated at the Fund level and applies to all series of the Fund.

## MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A and Series F. Management fees for Series I are negotiated and paid directly by the unitholders of Series I, not by the Fund.

For the six months period ended June 30, 2018, the Fund paid Bridgehouse Asset Managers management fees of \$205,364. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A (42% / 58%)
- Series F (0% / 100%)
- Series I (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

## PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the six months ended June 30, 2018 and each of the previous annual periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance, except in the case of Series I units where the management fee is calculated outside of the Fund. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

### Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year. 2018 data presented below is for the six-month period ended June 30, 2018.

\*Six-month return from January 1 to June 30, 2018.

\*Six-month return from January 1 to June 30, 2018.
