MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The investment objective of the Fund is to generate current income while protecting capital and providing liquidity.

The portfolio sub-advisor in respect of this Fund, Greystone Managed Investments Inc. ("Greystone"), invests the assets of the Fund in primarily Canadian dollar denominated money market securities issued by Canadian and foreign issuers.

Risk

During the year, interest rate risk continued to be a factor for the Fund. The rate of interest or yield from many of the securities in the Fund was low because of the overall low interest rate environment. There were no significant changes to the level or type of risk you would expect from the Fund, over the course of the year, and it continues to have a low risk level. Refer to the Fund's simplified prospectus for a complete list of all risks.

Results of Operations from January 1, 2017 to December 31, 2017

Markets & Effect

In this low interest rate credit environment, Greystone Managed Investments Inc. ("Greystone") continued to manage the portfolio with an emphasis on quality and liquidity and with a focus on providing stability of capital. As a result of historically low yields during the period, Bridgehouse Asset Managers ("Bridgehouse"), has continued to temporarily waive a portion of the management fees charged to the Fund in order to maintain a \$10 Net Asset Value per unit.

Performance

The Fund's Series A units trailed its benchmark, returning 0.0% versus a gain of 0.6% for the FTSE TMX Canada 91 day T-Bill Index.

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the "Past Performance" section for the returns of the other series, which may vary because of

differences in management fees and expenses or timing of series introduction.

The portfolio sub-advisor for this Fund was replaced on November 7, 2014. This change could have materially affected performance had it been in effect throughout the entire performance measurement period.

Asset Mix

At December 31, 2017 the portfolio had 100% in cash & cash equivalents, unchanged from December 31, 2016.

Flows

The Fund's Net Asset Value decreased to \$12.4 million at December 31, 2017, from \$15.4 million at December 31, 2016 due to outflows.

Recent Developments

There are no known changes at this time to the strategic positioning of the Fund, the manager, or portfolio sub-advisor.

International Financial Reporting Standards

IFRS 9, "Financial Instruments" ("IFRS 9")—The International Accounting Standards Board (IASB) issued IFRS 9 to replace IAS 39, "Financial Instruments—Recognition and Measurement". IFRS 9 introduces a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognized in profit or loss.

The new standard is effective for the Fund's for its fiscal year beginning January 1, 2018. On adoption of IFRS 9 the Fund's investment portfolio will continue to be classified as fair value through profit or loss. Other financial assets which are held for collection will continue to be measured at amortised cost with no material impact expected from application of the new impairment model. As a result, the adoption of IFRS 9 is not expected to have a material impact on the Fund's financial statements."

Related Party Transactions

Manager and Portfolio Advisor

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers ("Bridgehouse") which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each class of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Bridgehouse has retained Greystone Managed Investments Inc. ("Greystone") as the portfolio sub-advisor to the Fund. Bridgehouse pays Greystone an investment management fee to provide the Fund with investment management services.

Forward-Looking Statements

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as "may", "will", "should", "could", "expect", "anticipate", "intend", "plan", "believe", or "estimate" or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

4. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at December 31 of the previous years shown.

5. The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A and Series F.

For the year ended December 31, 2017, the Fund paid Bridgehouse Asset Managers management fees of \$124,200. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A (27% / 73%)
- Series F (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year.

Annual Compound Returns (%)

The table shows the historical annual compound total return for each series of the Fund as compared to the benchmarks listed below. The returns are for periods ended December 31, 2017. For a discussion of the relative performance of the Fund as compared to the index, please refer to the “Results of Operations” section in the “Management Discussion of Fund Performance”.
