MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The objective of the Fund is to preserve value and achieve long-term capital growth and income by investing primarily in a diverse mix of other mutual funds and exchange traded funds that hold Canadian and global fixed-income and equity securities.

Morningstar Associates, Inc. ("Morningstar") uses a disciplined process to actively manage the Fund's asset mix and investments with a range of exposure from 45% to 75% in defensive assets such as fixed income and cash and from 25% to 55% exposure to growth assets such as equities.

Risk

As an investor in this Fund, you should be prepared for short-term performance fluctuations, and be a patient, long-term holder.

There were no significant changes to the level or type of risk you would expect from the Fund over the course of the year. It continues to have a low to medium risk level. Refer to the Fund's simplified prospectus for a complete list of all risks.

Markets & Effect

Global markets, as measured by the MSCI World Index, experienced more pronounced volatility during 2018 than in recent years, most notably in the last quarter of the year. In Canada, the S&P/TSX Capped Composite index declined 10.1% over the quarter, and the benchmark ended the year down 8.9%. Sagging domestic oil prices contributed to the Canadian decline, which was part of a much broader global drop. The Bank of Canada hiked rates by 0.25% during the quarter, their third increase of the year and the yield curve continued to flatten.

Performance

The Fund's Series A units trailed its benchmark, losing 3.1% versus a gain of 0.4% for the Morningstar Moderate Benchmark (the "Index").

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the "Past Performance" section for the

returns of the other series, which may vary because of differences in management fees and expenses or timing of series introduction.

Asset Mix

At December 31, 2018, equity and fixed income funds and ETFs made up 96.3% of the Fund and approximately 3.7% was in cash and other net assets.

Flows & Fees

The Fund's Net Asset Value increased to \$13.3 million at December 31, 2018, from \$4.0 million at December 31, 2017. Of this change, a decrease of \$0.3 million was due to negative investment performance (net of investment income), and an increase of \$9.6 million was due to inflows.

For Series A units, the annualized management expense ratio ("MER") at December 31, 2018 is 2.02%, compared to 2.05% at December 31, 2017.

Recent Developments

There are no known changes at this time to the strategic positioning of the Fund, the manager, or portfolio sub-advisor.

Effective January 1, 2019, Lawrence Ritchie replaced Nicholas Le Pan (Chair) who stepped down from the IRC on December 31, 2018.

International Financial Reporting Standards

Effective January 1, 2018, the Funds classify and measure financial instruments in accordance with IFRS 9 Financial Instruments (IFRS 9). Upon initial recognition, financial assets and financial liabilities are classified as FVTPL. Upon transition to IFRS 9, the Funds financial assets and financial liabilities previously classified as FVTPL under IAS39 continued to be categorized as fair value through profit and loss. There were no changes in the measurement attributes for any of the financial assets and financial liabilities upon transition to IFRS 9.

Related Party Transactions

Manager and Portfolio Sub-Advisor

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers (“Bridgehouse”) which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each class of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Bridgehouse has retained Morningstar Associates, Inc. (“Morningstar”) as the portfolio sub-advisor to the Fund. Bridgehouse pays Morningstar an investment management fee to provide the Fund with investment management services.

Forward-Looking Statements

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as “may”, “will”, “should”, “could”, “expect”, “anticipate”, “intend”, “plan”, “believe”, or “estimate” or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund’s simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

Benchmark Index

- The financial information presented in the Net Assets per Unit table is derived from the Fund's audited financial statements.
- Net Assets and distributions are per Unit of a series are based on the actual number of units outstanding for that series at the relevant time. The Increase (Decrease) from Operations per Unit of a series is based on the weighted average number of units outstanding for that series during the financial period.
- Distributions per Unit of a series are based on the number of units outstanding for the series on the record dates for the distributions. Distributions were paid in cash/reinvested in additional units of the Fund or both.

Ratios and Supplemental Data

		Net asset value (\$000) (note 4)	Number of units outstanding (000) (note 4)	Management expense ratio (MER) (%) (note 5)	MER before waivers or absorption (%) (note 5)	Portfolio turnover rate (%) (note 6)	Trading expense ratio (%) (note 7)	Net asset value per unit (\$)
Series A	2018	6,399	671	2.02	2.26	29.93	0.13	9.53
	2017	2,917	293	2.05	2.45	62.66	0.14	9.95
Series F	2018	6,461	674	1.06	1.30	-	-	9.59
	2017	968	97	1.09	1.50	-	-	9.97
Series I	2018	453	48	0.06	0.06	-	-	9.53
	2017	153	15	0.06	0.06	-	-	9.88

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at December 31 of the previous years shown.
- The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and the Portfolio's proportionate share of the MER, if applicable, of the Underlying Funds and Exchange Traded Funds in which the Portfolio has invested, allocated to that Series, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.
- Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The trading expense ratio represents total commissions and other portfolio transaction costs, including the Portfolio's proportionate share of the commissions, if applicable, of the Underlying Funds and Exchange Traded Funds in which the Portfolio has invested, expressed as an annualized percentage of daily average Net Asset Value of the Fund. The trading expense ratio is calculated at the Fund level and applies to all series of the Fund.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A and Series F. Management fees for Series I are negotiated and paid directly by the unitholders of Series I, not by the Fund.

For the year ended December 31, 2018, the Fund paid Bridgehouse Asset Managers management fees of \$112,097. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A (47% / 53%)
- Series F (0% / 100%)
- Series I (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance, except in the case of Series I units where the management fee is calculated outside of the Fund. Series I performance does take into account embedded management fees and operating expenses from underlying investments that the Fund may hold. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year.

*2017 Series I returns are from May 17, 2017
