10. TORONTO DOMINION BANK	4.1%
<b>The top 10 investments make up 92% of the Fund.</b>	<b>92%</b>

**Total number of investments: 15**

#### Investment mix (March 29, 2018)

### How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

#### Risk rating

Bridgehouse has rated the volatility of this Fund as **Low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the Risk section of the Fund's simplified prospectus.

#### No guarantees

Like most mutual funds, this Fund does not have any guarantees. You may not get back the amount of money you invest.

### How has the fund performed?

This section tells you how Series A units of the Fund have performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

The Portfolio Sub-advisor for this Fund was replaced on November 7, 2014. This change could have materially affected performance had it been in effect throughout the entire performance measurement period.

**Year-by-year returns**

The bar chart shows the Fund's Series A units annual performance for each of the years shown. The Fund dropped in value in 0 of the 10 years. The range of returns and change from year to year can help you to assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the Fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invest \$1,000 at the beginning of the period
<b>Best return</b>	0.8%	December 31, 2007	Your investment would rise to \$1,008
<b>Worst return</b>	0.0%	May 31, 2009	Your investment would rise to \$1,000

**Average return**

If you invested \$1,000 in the Series A units of this Fund 10 years ago it would now be worth \$1,013. This represents an annual compound rate of return of +0.1%.

**Who is this fund for?**

- You might consider this Fund if you are seeking minimal capital risk and a cash portion for your investment portfolio.  
You should not invest in this Fund if you can accept volatility and are seeking long term capital growth.

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, any fund distributions are included in your taxable income, whether you receive them in cash or have them reinvested.

**How much does it cost?**

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the Fund. The fees and expenses - including any commissions - can vary among each series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**

You have to choose a sales charge option when you buy the Fund. Ask about the pros and cons of each option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
<b>Front-end sales charge</b>	0% to 5% of the amount you purchase	\$0 to \$50 for each \$1,000 investment	The sales charge is decided by you and your representative at the time of purchase. It is deducted from the amount you invest and is paid to your representative's firm as a commission.
<b>Deferred sales charge</b>	If you sell within: Year 1      5.5% Year 2      5.5% Year 3      4.5% Year 4      4.0% Year 5      3.5% Year 6      2.5% Year 7      1.5% After Year 7      0.0%	\$0 to \$55 on every \$1,000 you sell	The deferred sales charge is only charged if you sell within seven years of the date you purchased and is deducted from the amount you sell. When you buy units, Bridgehouse pays your representative's firm a commission of 5%. You may sell up to 10% of your units each year without being charged. If you switch to another Bridgehouse Fund, the redemption fee on the new units would be based on the original cost before the switch. Any deferred sales charge you pay when you sell goes to us.

<b>Low load</b>	If you sell within:		\$0 to \$30 on every \$1,000 you sell	The low load option is a deferred sales charge that is only applied if you sell within three years and is deducted from the amount you sell. When you buy units, Bridgehouse pays your representative's firm a commission of 2.0%. If you switch to another Bridgehouse Fund, the redemption fee on the new units would be based on the original cost before the switch. Any deferred sales charge you pay when you sell goes to us.
	Year 1	3.0%		
	Year 2	2.5%		
	Year 3	2.0%		
	After Year 3	0.0%		

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of December 31, 2017, the Fund's expenses were 0.88% of its value. This equals \$9 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
<b>Management expense ratio (MER)</b> This is the total of the Fund's management fee (which includes the trailing commission) and operating expenses as at December 31, 2017. Bridgehouse Asset Managers waived some of the Fund's expenses. If we had not done so, the MER would have been higher.	0.88%
<b>Trading expense ratio (TER)</b> The costs of investing are included in the price when buying a fixed income security and are not broken out separately for reporting purposes.	0.00%
<b>Fund expenses</b>	<b>0.88%</b>

**More about the trailing commission**

The trailing commission is an on-going commission. It is paid for as long as you own the Fund. It is for the services and/or advice that your representative and their firm provide to you.

Bridgehouse pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the average daily value of your investment. The rate depends on the sales charge option you choose.

Sales Charge Option	Trailing commission
<b>Front-end Sales Charge</b>	0.25% (\$2.50 per \$1,000 investment each year)
<b>Deferred Sales Charge</b>	0.15% on 'Chargeable' units (\$1.50 per \$1,000 investment each year)
	0.15% on 'Free' units (\$1.50 per \$1,000 investment each year)
	0.15% on 'Matured' units (\$1.50 per \$1,000 investment each year)
<b>Low Load Sales Charge</b>	0.15% on 'Chargeable' units (\$1.50 per \$1,000 investment each year)
	0.15% on 'Matured' units (\$1.50 per \$1,000 investment each year)

'Matured' units are all units that have been issued and outstanding for more than seven years for the Deferred Sales Option or more than three years for the Low Load Option.

'Free' units are the number of units eligible for free redemption in the Deferred Sales Option during years one through seven, based on 10% free redemptions per year in respect of the Deferred Sales Option only.

'Chargeable' units are the total number of units less the number of 'Free' or 'Matured' units, if any.

**3. Other fees**

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

Fee	What you pay
<b>NSF cheque fee</b>	A fee of \$25 may be charged on NSF cheques.
<b>Short-term trading fee</b>	Bridgehouse reserves the right to charge a short-term trading fee of up to 5% of the NAV of any units you sell or switch within 30 days of purchase in addition to any switch or redemption fees that may apply in order to deter inappropriate and excessive short-term trading that is harmful to the Fund.
<b>Switch Fees</b>	A maximum of 2% of the amount being switched may be charged and paid to your representative's firm to provide compensation for the time, advice and processing costs involved in a switch. All switch fees are negotiable with your representative.
<b>Wire transfer fee</b>	A fee of \$25 may be charged if you request a wire transfer.

**What if I change my mind?**

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

**For more information**
