### How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

**Risk rating**

Bridgehouse has rated the volatility of this Fund as **Low to Medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the Risk section of the Fund's simplified prospectus.

**No guarantees**

Like most mutual funds, this Fund does not have any guarantees. You may not get back the amount of money you invest.

**How has the fund performed?**

This section tells you how Series F units of the Fund have performed since May 3, 2019\*. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

**Who is this fund for?**

- This Fund is suitable for investors who are long term investors and who wish to add the appreciation potential of Canadian and foreign companies to their portfolio as well as the security of fixed-income investments. This Fund is not suitable as a short term investment or for investors who cannot tolerate a low to medium degree of volatility.

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, any fund distributions are included in your taxable income, whether you receive them in cash or have them reinvested.

**How much does it cost?**

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the Fund. The fees and expenses - including any commissions - can vary among each series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**

This Series of units does not have a sales charge option.

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of December 31, 2019, the Fund's expenses were 1.23% of its value. This equals \$12 for every \$1,000 invested.
